

CNC Machines

Hause Machines offers a variety of vertical machining centers to help solve your manufacturing problems economically! Each machine offers it’s user many great standard features as well as multiple options and accessories!

VERTICAL MACHINING CENTERS

- 60 to 8,000 RPM (up to 15,000 optional)
- Rigid Tapping
- BT-30, BT-40 Spindle Nose Taper
- 3 axes rapid travel, X, Y:48M/min, Z:48 (60) M/min
- Fully enclosed, heat isolated electrical cabinet (with heat exchanger)
- High Speed ATC system, T.T.:1.4 seconds (BT-30)
- Direct coupled drive system
- Multiple options
- 3 Different Models/Sizes

CNC LATHES

Hause Machines can provide you with CNC lathes with two spindles and two turrets. The unique integration of two independent lathes and equipped with two sets of CNC control systems, it can operate individually or as one to finish the second half of the part.

- Variety of Models
- Full guarding
- Coolant system
- Lube system
- Work lights/Tower lights
- Chip conveyor
- Many options

CNC POLYGON MACHINES

These machines offer wide cutting ranges, eccentric cutting, profiling etc. With rigid construction and high performance these machines can be a great benefit to your production needs.

- Multiple Models
- Cutter Head
- Full Guarding
- Hydraulic power chuck
- Rear locator
- Lubrication
- Variety of Options
